Wednesday 5<sup>th</sup> November 2025

Dear Families,

We are excited to announce a unique opportunity for our students to experience a rocks and soils session with 'Starlight STEM' on Friday 28th November 2025 which coincides with our Science work on this topic. This educational event will be a fantastic addition to our science curriculum, allowing our children to explore geology in an engaging and immersive way.

In order to make this incredible experience possible, we kindly request a contribution of £9.70 per child. This small fee will cover the costs associated with the session and helps ensure that we can continue to provide exceptional learning opportunities for our students. We want to ensure that all children have the opportunity to participate. Therefore, for children receiving pupil premium, we kindly request a contribution of £4.85

Payments to be made via IRISParentMail under the heading Rocks and Soils 2025.

Our school greatly values parental involvement and we believe that by working together, we can create an enriching educational experience for our children. Thank you in advance for your support in making the session a memorable event for our students.

If you have any further questions or concerns, please do not hesitate to contact me via Class Dojo. We look forward to your positive response and to providing our children with a memorable learning experience.

Best wishes,  
Mrs Holt
